

IN THE DEEP SWIM SCHOOL

Our passion is to see kids learn to love and respect the water. We teach world-class technique, gifting them with confidence to last a life-time of swimming. We welcome all ages and abilities. Our baby program starts from six months and leads into our learn to swim levels, stroke development levels and squads. Our unique programs are meticulously crafted to build courage and resilience through small, achievable steps. With awards for each skill, kids are encouraged and guided into success every step of the way!
