

Notification of out of hours work – Kingsford

In planning for Tomorrow's Sydney we are building a new light rail line to provide modern, reliable and sustainable public transport that will transform services from Circular Quay and the CBD to Kingsford and Randwick via Surry Hills, Moore Park and Kensington.

Standard work hours are Monday to Friday 6am to 6pm and Saturday 8am to 5pm. This notification is for approved work that falls outside the standard working hours. This work will be carried out on the below dates and times to minimise disruption to traffic and to maintain the safety of construction work, residents, businesses and the general public.

Details of work activities

Work will take place at the following locations and at the following times:

- **Anzac Parade, between the Nine Ways Intersection and Sturt Street from Saturday 2 September to Monday 2 October 2017, 8pm to 6am and 8am to 5pm on Sundays**, work may also continue to 8am on Saturdays and Sundays.

Activities involve excavation, drainage work (including rock breaking), removal of remains of old tramway, geotechnical investigation (potholing and surveying), vegetation work (trimming, mulching, relocation and removal of shrubs or trees), utility installation and relocation (underground and overhead work), heritage work, movement of ground material, footpath and road pavement work, retaining wall construction, street light and power pole replacement upgrades, traffic control, traffic signals, signage, traffic barrier installation, line marking, road reinstatement, and substation construction work (includes excavation, milling and re-sheeting of the road, concreting works, structural steel installation and backfill).

Work and heavy vehicle movements will also take place 20 meters south of Sturt Street and at the Rainbow Street Rail Yard including rail deliveries. Work will also start on the investigation of the awning structures and building the footings for the light rail poles which will support both the overhead wiring to light rail vehicles and street lights.

You may experience some noise and vibration during this work. Where possible, high noise activities such as saw-cutting and jackhammering will not take place for more than two consecutive nights.

Equipment and vehicles used for this work may include radar detection and survey equipment, concrete trucks and pumps, flood lights, vacuum excavation trucks, piling rig, coring and drilling machines, excavators (with hammer attachment), compactors, pick and carry cranes, saw cutters, corers, road grinders, hand tools, water carts, welders, milling machines, drilling/boring machines, elevated work platforms, tipper trucks, bobcats, rollers, line marking trucks, cranes, semi-trailers, flat-bed trucks and traffic control vehicles.

Traffic and pedestrian changes

For the latest information on traffic conditions, visit livetraffic.com or download the Live Traffic NSW App.

Work will involve some lane closures under traffic management. Motorists will still be able to travel in both directions along Anzac Parade, with only some minor delays expected.

Where required, traffic control will be in place to direct motorists and pedestrians safely around the operations. Access for emergency services will be maintained at all times.
